

## **STATEMENT OF PURPOSE**

### **RS23950**

The purpose of this legislation makes a technical correction to Section 33-515, Idaho Code. SB1088 defines what constitutes a "reduction in force" and removes certain sunsets including a sunset on the current language in Section 33-515, Idaho Code, effective July 1, 2015. HB296 (career ladder) amended the renewable contract provision in Section 33-515, Idaho Code that would have been in effect July 1, 2015, but for the passage of SB1088. This legislation resolves this conflict by preserving the renewable contract provision pursuant to the changes in SB1088, and maintains the provision in HB296 regarding the ability for instructional staff to obtain a renewable contract and professional endorsements.

The proposed amendments add the exact language that was added to Section 33-515, Idaho Code that was approved by both bodies in HB296.

### **FISCAL NOTE**

No fiscal impact to the General Fund
